WHAT'S NEW FOR 2022

The majority of your benefits, and what you pay for them, are not changing for 2022. Learn about the changes before enrolling.

Contributions for coverage. The contributions you make for 2022 medical and dental coverage will increase slightly. This increase is to offset the rising cost of health care. Remember—if you've selected the Active Health Option, you'll have money in your HRA to help cover out-of-pocket expenses.

New legal services resources. If you find yourself needing legal support, refer to your Legal Services coverage and resources to see how they can help. In 2022, you'll have access to new services, including identity theft services, DIY Docs[®], and a legal hotline.
